## ***Teen accident-prevention video***

*"Road Skillz" is providing teen drivers with the knowledge and skills they need to avoid the most common accidents. Hosted by Indy Racing League driver Arie Luyendyk Jr., and with special appearances from some of the best drivers in the country, the video puts a new spin on teen accident prevention. In addition to instilling driving skills and confidence in young drivers, "Road Skillz" provides parents with a strong sense of security knowing that their teenage son or daughter is better prepared to handle potentially dangerous driving situations. "Road Skillz" is donating 5 percent of all profits to nonprofit organizations that provide teen driver training and education. "Road Skillz" also has Spanish and French soundtracks and is available at [www.roadskillz.com](http://www.roadskillz.com) at a cost of \$19.95.*
